CONTENTS

PART 1 (AUGUST 2003)

CROPS AND SOILS PAGE

KAGE, H., ALT, C. AND STÜTZEL, H. Aspects of nitrogen use efficiency of cauliflower I. A simulation modelling based analysis of nitrogen availability under field conditions 1

KAGE, H., ALT, C. AND STÜTZEL, H. Aspects of nitrogen use efficiency of cauliflower II. Productivity and nitrogen partitioning as influenced by N supply 17

SOLOMON, K. F. AND LABUSCHAGNE, M. T. Variation in water use and transpiration efficiency among durum wheat genotypes grown under moisture stress and non-stress conditions 31

KAMARA, A. Y., MENKIR, A., BADU-APRAKU, B. AND IBIKUNLE, O. The influence of drought stress on growth, yield and yield components of selected maize genotypes 43

BANTERNG, P., PATANOTHAI, A., PANNANGPETCH, K., JOGLOY, S. AND HOOGENBOOM, G. Seasonal variation in the dynamic growth and development traits of peanut lines 51

BARI, A., MARTIN, A., BOULOUHA, M., GONZALEZ-ANDUJAR, J. L., BARRANCO, D., AYAD, G. AND PADULOSI, S. Use of fractals and moments to describe olive cultivars 63

EIMERT, K., REUTTER, G. AND STROLKA, B. Fast and reliable detection of doubled-haploids in *Asparagus officinalis* by stringent RAPD-PCR 73

SORENSEN, P., WEISBJERG, M. R. AND LUND, P. Dietary effects on the composition and plant utilization of nitrogen in daily cattle manure 79

STOREHEIER, P. V., VAN OORT, B. E. H., SUNDSET, M. A. AND MATHIESEN, S. D. Food intake of reindeer in winter 93

ANIMALS

KIM, E. J., SCOLLAN, N. D., DHANOA, M. S. AND BUTTERY, P. J. Effects of supplementary concentrates on growth and partitioning of nutrients between different body components in steers fed on grass silage at similar levels of metabolizable energy intake 103

TUWEI, P. K., KANG'ARA, J. N. N., STEWART, J. L., POOLE, J., NGUGI, F. K. AND MUELLER-HARVEY, I. Factors affecting biomass production and nutritive value of *Calliandra calothyrsus* leaf as fodder for ruminants 113

PART 2 (SEPTEMBER 2003)

CROPS AND SOILS PAGE

McMASTER, G. S. AND WILHELM, W. W. Phenological responses of wheat and barley to water and temperature: improving simulation models 129

APPENDINO, M. A. AND SLAFER, G. A. Earliness per se and its dependence upon temperature in diploid wheat lines differing in the major gene *Eps-A^m 1* alleles 149

MIRALLES, D. J., SLAFER, G. A. AND RICHARDS, R. A. Influence of 'historic' photoperiod during stem elongation on the number of fertile florets in wheat 155

MIRALLES, D. J., SLAFER, G. A., RICHARDS, R. A. AND RAWSON, H. M. Quantitative developmental response to the length of exposure to long photoperiod in wheat and barley 159

HAKALA, K. AND PAHKALA, K. Comparison of central and northern European winter rye cultivars grown at high latitudes 169

LOCK, A. A. The origin and significance of an indent on wheat leaves 179

BERRY, P. M., SPINK, J. H., GAY, A. P. AND CRAIGON, J. A comparison of root and stem lodging risks among winter wheat cultivars 191

ZAHEDI, M. AND JENNER, C. F. Analysis of effects in wheat of high temperature on grain filling attributes estimated from mathematical models of grain filling 203

YADAV, R. L., SINGH, V. K., DWIVEDI, B. S. AND SHUKLA, A. K. Wheat productivity and N use-efficiency as influenced by inclusion of cowpea as a grain legume in a rice–wheat system 213

KAMARA, A. Y., KLING, J. G., MENKIR, A. AND IBIKUNLE, O. Agronomic performance of maize (*Zea mays* L.) breeding lines derived from a low nitrogen maize population 221

LUTMAN, P. J. W., FREEMAN, S. E. AND PEKRUN, C. The long-term persistence of seeds of oilseed rape (*Brassica napus*) in arable fields 231

McFARLANE, N. M., CIAVARELLA, T. A. AND SMITH, K. F. The effects of waterlogging on growth, photosynthesis and biomass allocation in perennial ryegrass (*Lolium perenne* L.) genotypes with contrasting root development 241

PART 3/4 (NOVEMBER/DECEMBER 2003)

CROPS AND SOILS PAGE

BROWNE, R. A., WHITE, E. M. AND BURKE, J. I. Effect of nitrogen, seed rate and plant growth regulator (chlormequat chloride) on the grain quality of oats (*Avena sativa*) 249

ANWAR, M. R., McKENZIE, B. A. AND HILL, G. D. The effect of irrigation and sowing date on crop yield and yield components of Kabuli chickpea (*Cicer arietinum* L.) in a cool-temperate subhumid climate 259

ANWAR, M. R., McKENZIE, B. A. AND HILL, G. D. Phenology and growth response to irrigation and sowing date of Kabuli chickpea (*Cicer arietinum* L.) in a cool-temperate subhumid climate 273

ANWAR, M. R., McKENZIE, B. A. AND HILL, G. D. Water-use efficiency and the effect of water deficits on crop growth and yield of Kabuli chickpea (*Cicer arietinum* L.) in a cool-temperature subhumid climate 285

JENG, T. L., WANG, C. S., CHEN, C. L. AND SUNG, J. M. Effects of grain position on the panicle on starch biosynthetic enzyme activity in developing grains of rice cultivar Tainung 67 and its NaN_3-induced mutant 303

CENTENO, C., VIVEROS, A., BRENES, A., LOZANO, A. AND DE LA CUADRA, C. Effect of several germination conditions on total P, phylate P, phytase, acid phosphatase activities and inositol phosphate esters in spring and winter wheat 313

SHARMA, S. N., SAIN, R. S. AND SHARMA, R. K. The genetic control of flag leaf length in normal and late sown durum wheat 323

HAINES, M. M., SHIEL, P. J., FELLMAN, J. K. AND BERGER, P. H. Abnormalities in growth, development and physiological responses to biotic and abiotic stress in potato (*Solanum tuberosum*) transformed with *Arabidopsis ETR1* 333

LOMBNÆS, P. AND SINGH, B. R. Predicting Zn and Cu status in cereals – potential for a multiple regression model using soil parameters 349

SHARMA, S. N. AND PRASAD, R. Yield and P uptake by rice and wheat grown in a sequence as influenced by phosphate fertilization with diammonium phosphate and Mussoorie rock phosphate with or without crop residues and phosphate solubilizing bacteria 359

FORUM

WEINER, J. Ecology – the science of agriculture in the 21st century 371
